(1) Statement on Financial Accounting Standard No. 157 "Fair Value Measurements" - Various inputs are used in determining the value of the Fund's investments.

These inputs are summarized in the three broad levels listed below.

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
 Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used as of March 31, 2020 in valuing the Fund's assets carried at fair value:

	Investments in		Other Financial
Valuation Inputs	Securities		Instruments
Level 1 - Quoted Prices	\$ 9,617,226	\$	-
Level 2 - Other Significant Observable Inputs	106,071,847		-
Level 3 - Significant Unobservable Inputs	5,856,416		-
Total	\$ 121,545,489	\$	-

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For example, short-term debt instruments and repurchase agreements with a maturity of less than 60 days are valued using amortized cost, in accordance with rules under the Investment Company Act of 1940. Generally, amortized cost approximates the current fair value of a security, but since the value is not obtained from a quoted price in an active market, such securities are reflected as Level 2.

(2) Represents non-income producing securities.

(3) Denotes a restricted security that either: (a) cannot be offered for public sale without first being registered, or availing of an exemption from registration, under the Securities Act of 1933; or (b) is subject to a contractual restriction on public sales. At March 31, 2020, these restricted securities amounted to \$5,856,416, which represented 4.27% of total net

- (4) Floating/variable note with current rate and current maturity or next reset date shown.
 (5) Variable rate instrument, varying maturity dates ranging from one month to nine months; 7 day demand redemption clause per deposit.
- (6) Denotes a restricted security that may be sold without restriction to "qualified institutional buyers" as defined in Rule 144A under the Securities Act of 1933 and that the Fund has determined to be liquid under criteria established by the Fund's Board of Trustees. At March 31, 2020 these liquid restricted securities amount to \$16,503,663, which represented 12.04% of total net assets.
